### THE CHRISTMAS HERALD.

THE CHRISTMAS HERALD for the Christmas year will be the greatest issue of any paper published in the inter-mountain region. It will deal with Utah and her resources, her history and her future giving every attention and detail to Utah. It will be especially designed for distribution at the World's Fair in 1893 and will commemorate the great progress of the past and point the way to the greater possibilities of the future. ### SEEN AND HEARD.

The sight of some fine Utah fruit, canned, intended for the World's fair, brought to mind what the Philadelphia Press said not long since. It was that we were indebted to Pompano for our process of canning fruit, some first having been discovered in the preservation some nineteen centuries ago. Who shall that our works do not live after us? No doubt it was the work of some thrifty housewife whose only thought was for the comfort of the head of her home. Little did she dream that it would give us an impetus to a splendid business of the New World. Columbus was to discover. What thoughts and feelings must have filled the minds and hearts of those Americans who ate that fruit! Truly we are of more account than we often think.

How crowded the street cars were on the night before Thanksgiving! Every arm of the good things which make up that dinner of the year to which all thoughts and hearts turn. Christmas dinner is, after all, only secondary to the delight of the children with their store of pretty things Santa Claus has brought. But Thanksgiving takes in the absent from their homes, so that the feeling of "Out in the cold world" shall not enter their hearts. It is the result of home folks, the time to pause and think of what little time we really have to quietly enjoy the time of kindred and home in this busy, rest less world. So that when we saw the children, the turkey and that great white goose which was carried home that night, they lay in our hearts that its pretty white neck would lie beneath the hatchet, gives

place to peace and contentment for so many blessings.

How devoted some women are to pots! Dogs, cats and birds come in for a goodly share of madam's caresses. It was in the years gone by that old maids seemed the only ones that bore the ridicule for such demonstrations, but that funny specimen of single blessedness seems entirely to have disappeared and to have cast her mantle upon the sometimes pretty matron with the tight curling locks, or the married dame without children. Well, the single women have not time, so they leave all petting of the dumb animals to their more fortunate sisters who have husbands to keep them in line. Of all the queer things that are fond of a pet toad, and yet the writer once knew a lovely young girl who gave all her time to one. A bird can sing and so reward its faithful attendant, and a dog will follow one about, will protect its mistress, but a toad seems good for naught.

Art in Salt Lake has made rapid progress, and is being felt quite forcibly by all our citizens. The reception given some time since by Mr. and Mrs. Dallas showed to all how far we are advanced in the line of sculpture. And again that of Mr. Harwood was a great delight, and is sure to do good. The oil and water colors were very fine, and saw the Woman's Relief Corps have brought out some beautiful specimens of china painting by our talented lady artists. Madamess Harkness, Justice, Pearley, Byers, Wastland, Cline and Miss Monroe, all showed to the public that art is awakened in art, the taste is sure to grow and spread rapidly, for it is the need which is felt to lift as out of the every-day drudgery and place it, for the while at least, into the higher and more poetical realm.

**WONDERLAND.**  
It will be seen by reference to the company's regular ad on amusement page, that they have adopted a plan which is encouraged by a sufficiently liberal patronage to permit them to carry out their wishes, will prove a tremendous success. So far the stock company has been accorded the warmest kind of a reception, and the character of work put out by them has been of a high grade class. In addition to the remarkably clever company a long list of vaudeville novelties will also grace the boards.

**LOCAL NOTES.**  
The gospel meeting at the Y. M. C. A. will be held in their rooms as usual, at 4 o'clock this evening. The subject is "A Question Every Man Must Answer"—Heb. 2:1-4.  
F. A. Grier was arrested yesterday by Captain Newhall on a warrant issued by the court for the violation of the ordinance of the city. The ground for the arrest was that he had been seen in a high grade class. In addition to the remarkably clever company a long list of vaudeville novelties will also grace the boards.

**OBSEVANCE.** Salt Lake's report of yesterday's temperature is as follows: 8 a. m.—Salt Lake, 20; Baker City, 23; Cheyenne, 10; Helena, 10; Miles City, 14; Winemans, 20; Idaho Falls, 21; Salt Lake, 21; Bend, 20; Reno, 21; Logan, 15; Park City, 18; Provo, 21; Stockton, 19; Alta, 23.  
The church society will meet again tomorrow evening. Active canvassers of the "Ladies of Asia" have been going out for the past two days, and excellent progress has been made. The Light Asia will be produced at the Lake theatre on Jan. 2 instead of Dec. 23, as at first announced.  
JAMES T. JAKEMAN will be turned over to Marshall Brown of Provo, this morning, to be taken back to that city to answer a number of charges of obtaining money by false checks. Jakeman's swindling operations in this city have been compromised by his friends, all of the money he had been obtaining having been paid back to the parties from whom it was obtained.

THE ushers of the theatre are making extensive preparations to meet the thousands of guests at their ball and children's matinee to be given on next Friday night. Saturday afternoon and evening. The grand march will begin at 12:30, and during the afternoon the pleasing illuminated fairy fountain will be shown. This is the last public matinee of the season and it is expected to be a success.

THE City Creek aqueduct on North Temple street has been the receptacle for some days of several hundred loads of snow and dirt which has been carried from the streets. In some places the aqueduct is filled full and the residents anticipate an overflow when the surplus water of City Creek is turned in. Some bright mind yearning to help deplete the city treasury is making the aqueduct the city dump.

According to the Scriptures, the first thing that Noah did after the flood was to plant a vineyard; the second, to get drunk on its wine.

According to a report of parliament in 1791, 250,000,000 were spent drinking in Great Britain—250,000,000 by the poorer classes.

Among the Saxons, when drinking healths, as many cups were drunk as there were letters in the name of the person complimented.

The Jews had two kinds of grape wine—the wine of Heron, generally sent abroad, and the wine of Lebanon, famous for its bouquet.

FLED THE CITY.

William H. Jay Seeks Pastures New.

Setting of Jury Civil Cases—Suits Filed Yesterday—A \$10,000 Suit Against a Mother-in-Law.

William H. Jay is the latest name enrolled upon the list of those who have fled from the city under a cloud. Jay is a well known contractor and has resided in the city for some time past. For several months he has acted as treasurer for the Washakie Tribe No. 1, Improved Order of Red Men, and when he decamped he had \$175 of the funds of that order in his possession. An attachment suit was filed against him in Justice Goe's court yesterday, the plaintiffs being Solomon Crowe, S. D. Ross and Ben Johnson, trustees of the order. They allege in their complaint that Jay has absconded from the territory; that he had in his possession as treasurer of the order \$175, and that they, as trustees, have a right to demand that sum whenever they so desire. Jay left \$75 in the Utah National bank, and the amount was attached by the plaintiffs yesterday. It is presumed that Jay has gone to California, as he sent his family there several weeks ago.
